

SUBJECT/SPECIAL STUDIES/ CAREER WORK EXPERIENCE EDUCATION

Recognizing that the classroom presentation does not always allow sufficient time for consideration and elaboration of special topics of interest to instructor and student, Cabrillo College offers three kinds of special study courses. These courses allow the student to explore special aspects of subject matter with one or more faculty members or have an opportunity to review in greater detail the material covered in class. Four year colleges and universities may limit the number of special studies units which are accepted. See a counselor for more information. Special Studies Courses must be initiated by a faculty member and the student must complete registration during the first 50% of the (fall or spring) semester meeting dates; please see Division Office staff for precise dates for summer Special Studies.

See the below for more information about the Career Work Experience Education program.
