

Configuring Cabrillo Email - iPads

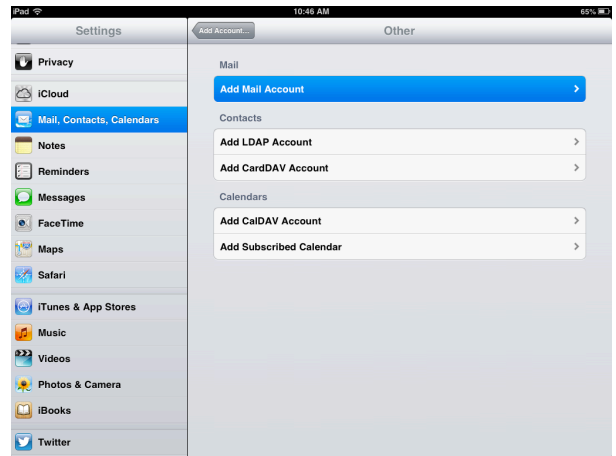

Step 1:

Go to "Settings" and click "Mail, Contacts, Calendars"

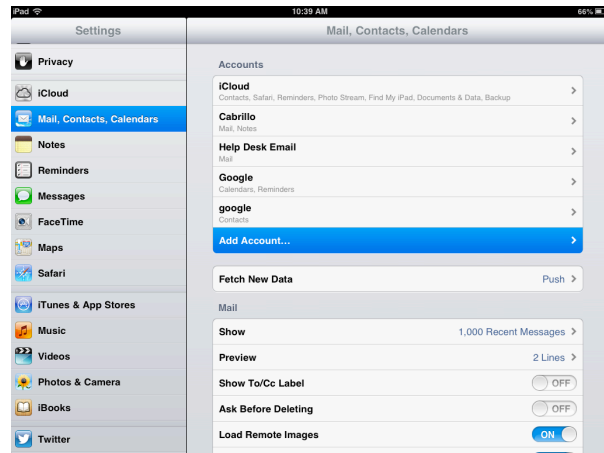

Step 4:

Select "Add Mail Account"

Step 2:

Select "Add Account" under "Accounts" Section

Step 5:

For name, write your actual name, like "Firstname Lastname".

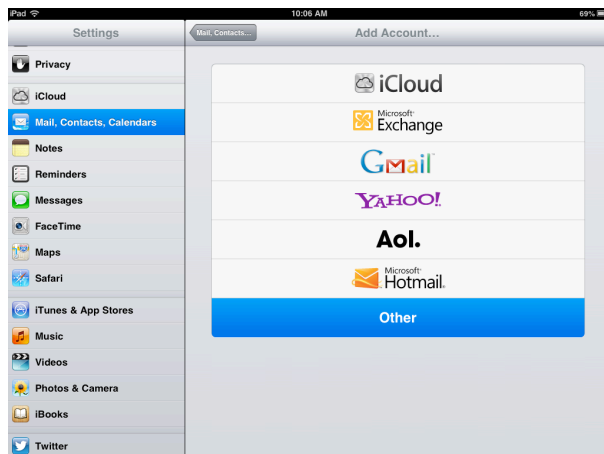

For email, write your full Cabrillo email, including the '@cabrillo.edu'

Then enter your Cabrillo network/email password.

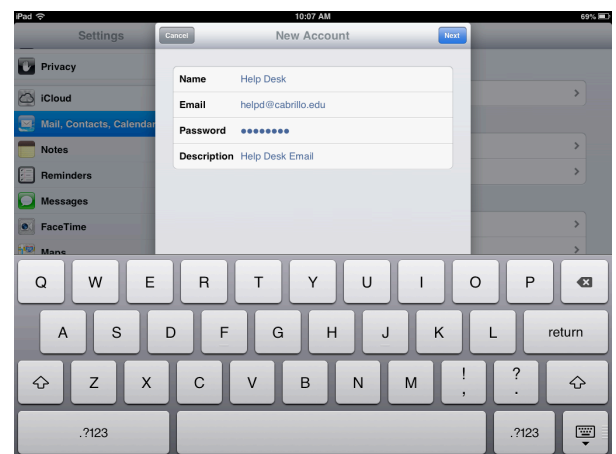

For description, "Cabrillo Email" works well; make sure you can differentiate it from other accounts you may have on your phone.

Step 3:

Select "Other"

Select "Next"

Configuring Cabrillo Email - iPads

Step 6:

Scroll down to find "Incoming Mail Server".

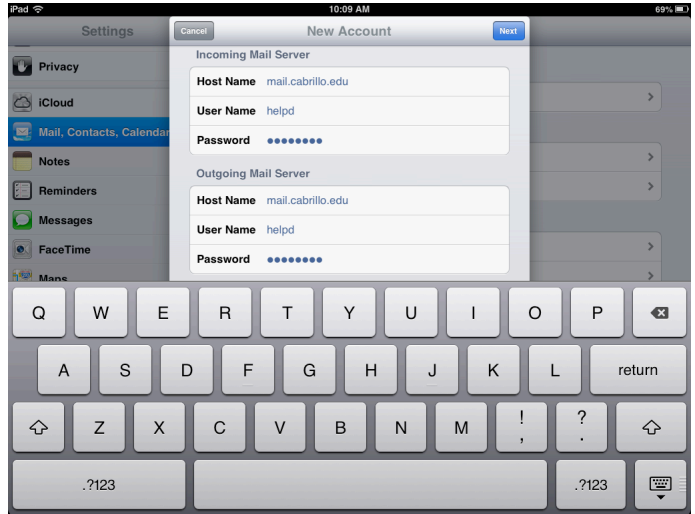

For Host Name write "mail.cabrillo.edu".

For username, write your cabrillo email minus the "@cabrillo.edu".

For password write your email password

The 'Outgoing Main Server' write
"mail.cabrillo.edu)

Press "Next".

Step 7:

In the next section, titled "IMAP", turn Mail to the "ON" position and Notes to the "OFF" position.

Now hit "Save" and you're finished!
